

Administrative Personnel Other Than the Superintendent

Administrative Procedure – Administrative Compensation

On or before the beginning of a new fiscal year, the Board will review, suggest changes, if necessary, and approve a salary and benefit package.

Salary for each administrative position will be detailed in a salary schedule. The schedule will provide for incremental categories, which reward administrative experience.

Movement through incremental steps will require that each administrator receive a satisfactory or better rating from their immediate supervisor.

The Board shall consider the following factors in setting salary schedule levels:

1. Skill or educational level (M.S., Ph.D., Ed.D., or Specialist or Endorsements)
2. Job complexity (more than one area of responsibility, unrelated tasks)
3. Supervisory responsibility (number of staff directly or indirectly supervised)
4. Scope of policy implementation
5. Authority over expenditures of public funds
6. Working conditions (extended hours, days or unusual schedules)
7. Administrative experience
8. Teaching experience

Setting Administrative Salaries

New Placement on the Administrative Salary Schedule

The determination of an administrator's placement on the salary schedule will follow the following procedure:

Base Salary x 10% for increased responsibility.

Base Salary x 2% for each month the administrator will work beyond nine (9) months.

Base + increases, rounded up to the nearest level in the appropriate category on the administrative salary schedule.

If a person's administrative salary would be less than they are currently making, using the above calculations, due to the fact that they are receiving extracurricular stipends, then the following procedure will be followed:

Base + extracurricular stipend+2% for each month the administrator will work beyond nine (9) months, rounded up to the nearest level in the appropriate category on the administrative salary schedule.

Employment of an existing Administrator to a new Administrative Position

If an existing administrator is employed in a new position, they will move horizontally to the appropriate category. There will be no level movement up or down.

In no case will the administrator's salary be reduced unless the new assignment requires less responsibility or fewer months worked. The Board may choose to freeze a salary if the current salary would be higher than the maximum salary in the new position.

When general salary percentage increases are approved by the Board, the percentage shall be applied to the mastery level for calculation purposes. Administrative increments will be a standard amount according to the administrative salary schedule.

The number of months and days worked for each position will be determined by the Board based upon the individual requirements and responsibilities of each position.

9 months	=180 days
9.5 months	=185
10 months	=195 days (The number of days before the opening and Closing of schools will be determined by the Superintendent)
12 months	=245 days
