

## Students

### Administrative Procedure – Education of Expectant Mothers

A pregnant student may qualify for homebound instruction or other alternative educational services when her physician certifies that she is unable to attend classroom instruction due to her pregnancy. Pupils who are unable to attend classes due to pregnancy, before the birth or for up to three months after the birth, may request alternative educational instruction, pursuant to which an I.E.P. will be developed, and the District will make a recommendation for the appropriate alternative instruction. In the event a student follows the recommendation, then the District will pay for her school instruction.

#### Alternatives

1. Regular school attendance with necessary modifications
2. Alternative School (C.Y.S.)
3. Homebound/Hospital Teaching
